

We LISTEN. We CARE.

At Ozark Center, we strive to improve so we can better serve our clients, our staff and our community. Our strategic priorities are:

People | Service | Quality/Safety
Finances | Growth | Innovation | Facilities

For that purpose, Ozark Center has set the following goals for itself:

1. Retain our staff
2. Address “right-sizing” of center programs
3. Increase client encounters
4. Support growth in services, efficiencies in operations and improve reporting systems
5. Improve the physical health status of adults with serious mental illnesses
6. Improve data collection and analysis
7. Expand and sustain positive partnerships
8. Continue trauma-informed environment projects
